*A True Sailing Adventure. In Style*

# RUNNING ON WAVES

Meet a sailing beauty *RUNNING ON WAVES*, a 64-metres-long three-mast barquentine, one of the biggest sailing ships in the world. Benamed by the media "The most beautiful sailing ship of the XXI century", she is like a childhood Dream of Adventure incarnated. She will take you to your journey of a lifetime. *RUNNING ON WAVES* is a genuine sailing cruise vessel of high ocean-going class that implies unrestricted sailing region except for glacial zones in wintertime, and the highest safety standards maintained on board in compliance with the SOLAS convention.

Launched in 2011, she is a combination of a classical clipper with contemporary design engineering, elegant, high-speed and environment-friendly.

The ship was conceived to combine maneuverability of a sport yacht, the highest standards of comfort and decor, and a shallow draft that allows calling at small marinas and secluded coves inaccessible even to many a big yacht, let alone cruise liners.

Cutting-edge technologies, such as pitch-killing stabilizers and sophisticated masses distribution, help make sailing comfortable at any sea conditions. Desalinators account for the unlimited supply of fresh water.

Our state-of-the-art hydraulic ramp at the stern of the vessel provides direct access to water for swimming and water sports.

Sails being our main driving power, we boast unbeatably low level of fuel consumption, on average 75 l per hour only, which is about 10 times lower than on a motor boat of a comparable size.

- active lifestyle, premium comfort and intimacy of a private mega-yacht, gastronomic indulgence;
- true romanticism and the aura of seafaring;
- out-of-ordinary itineraries that open for you a door to wild nature, pristine beaches, cosmopolitan ports and guide you through palette of cultural and natural tints unseen by a mass tourist thus turning your vacation into a genuine ecology- and culture-aware exploration;
- add to this 15.5 square metres of available open teakwood deck space per guest, and this is what they call the signature *RUNNING ON WAVES* experience aspired by connoisseurs of sophisticated travel throughout the world.

*RUNNING ON WAVES* is a second-to-none venue for your private function as well as for top-level business and educational events. The salon can comfortably accommodate up to 42 guests and is equipped as a full-scale multimedia hall, including simultaneous translation, hi-end professional video and sound, thus allowing you to hold a presentation, a lecture, a conference or a seminar at an unmatched level.

*Prestige. Freedom. Sails.*

## RUNNING ON WAVES

The interior concept deftly embodies Art Deco ideas with carefully selected natural materials: mahogany, leather, teak, corian, stainless steel, while marine accessories and paintings by contemporary artists call to life a strong charisma of the classical yachting style.

18 ensuite cabins equipped with a 5-star hotel room facilities (safe-box, multifunctional TV monitor, air conditioner, fridge, hairdryer, bathrobes, slippers) provide various accommodation options to meet requirements of business guests, leisure travelers and families alike. 5 cabins at the main deck, finished in warm colours, feature panoramic windows, skylights, double beds, while 13 lower deck cabins have portholes, are styled in green and blue colours and include 4 doubles, 1 twin, 3 pullman (bunk) twins and 5 triples. The cabins are intricately decorated with mosaics and have marble sinks in the bathrooms.

From your cabin you can monitor the vessel's current operation, as images from surface and underwater cameras as well as navigation systems indications from the bridge are broadcast to the cabins TVs.

Apart from the two bars you can relish your favorite drink in one the three open-deck lounge areas with bartender service.

A large number of shadowed zones allows you to enjoy a cruise even despite the baking sun.
